

Commercial Flood Insurance

Flood insurance is a smart investment, protect your business from one of the most common natural disasters.

Just an inch of water in your building can cause \$25,000 of damage.

According to FEMA at least 25% of small businesses never reopen their doors following a disaster.

Commercial property insurance generally does not cover flood damage. A commercial flood insurance policy is essential in protecting your business from financial loss from flood.

The NFIP General Property Form offers commercial policyholders coverage up to \$500,000 for building coverage and up to \$500,000 for personal property coverage.

Commercial flood insurance is also available for tenants.
